Customer understanding

First ideas and perspectives for product and business strategy

Hamburg, May 2023

KoRo

Introducing NativeResearch

German company created by a BCG consultant in 2019, specialized in consumer insights for and with client segments in demanding environments such as top management consulting, investment banking, and private equity.

100+	40+	50+	500k+
Projects per year	Years of experience	Markets researched	Completed interviews per year

Selected engagement references

Select examples

	Global segmentation	Pricing conjoint	Visitation model
Industry	Beverages	Restaurants	Travel and tourism
Context	• 20 markets, 180,000 completes • Involvement of client country teams • Evolving case teams over time	• End-client budget limitation • Client inexperienced with conjoint • Threat of weakened client relationship	• Market selection with limited online penetration and niche target group • Case team with almost no quant survey experience
Involvement *In all projects core survey execution fully delivered*	• Management of survey design inputs (80k variables per respondent) • Daily nat rep balancing with 3 different panel partners • Onboarding and guidance of changing team members	• Consulting client involving 1 partner directly, using Native as case team • Full ownership of methodology design, conjoint analysis, simulations • Co-presentation in front of C-suite	• Identification and coordination of 20+ panel partners for niche markets • Data management, analysis, and Excel modelling for case team members
Impact	Consistency and quality in delivery over 1.5 years of highest project complexity	Visibility for consultancy via us, control of methodology, and further sales potential	Offsetting consultant absence and seamless integration in case workstream

Meet the core team

Johannes Nass

Founder &
Managing Director

Former BCG consultant and strategic leader in the renewing of market research

Hanno Stier

Director
Consumer Insights

10-year experience in research consulting including customer segmentations, brand tracking, conjoint analysis

Kosmo Karantonis

Associate Director
Consumer Insights

Former BCG consumer insights specialist with focus on customer segmentations, conjoint analysis, and brand equity measurement

Julie Yakimenko

Associate Director
Consumer Insights

Over 5-years experience in research consulting with a deep focus on customer profiling and segmentations

Raoul Gassner

Associate Director
Analytics

5-years background in application of research data in conjunction with dashboarding software

Our understanding of KoRo and the ambition

Koro brings consumers and producers **closer together** with the aim to become Europe's **number one** for durable food

As of today, Koro contains “Hero categories”, “Other non-perishable food” and “Non-food” product categories

In order to **maximize consistent growth**, KoRo seeks to gather insights on their customer base and potential

nativeresearch

Strategic Growth Accelerator (SGA)

Our **holistic strategic framework** enables a **deep understanding** of **consumer choice** and **needs** to develop an **analytically-driven** customer segmentation

Providing a basis to assess and address a vast array of **strategic questions** and identify a **clear, actionable, and sustainable** path to achieve **growth** ambitions over the next several years

Contextualize → ***Understand*** → ***Synthesize***

What defines a sound strategic framework?

Size of demand?

- Develop a deep understanding of the drivers behind consumer demand
- Establish tangible customer segments anchored in the realities of the market

Where to play?

- Identify tactical 'plays' based on drivers of consumer needs
- Highlight brand strength and alignment by play
- Understand customer journey to identify key touchpoints across each play

How to win?

- Strategic prioritization of plays based on size of the prize, context of the market, and competitive environment
- Establish commercial objectives to win

How to activate?

- *Specific activation topics*
  - *Pricing strategy*
  - *Brand tracking*
  - *Innovation testing*
  - *Mktg. mix optimization*
  - *Category deep dives*
- *CRM optimization and typing*

Contextualize → ***Understand*** → ***Synthesize*** → ***Synthesize*** → ***Extend***

Three core steps to deliver growth for KoRo with ability to extend insights

Strategic Growth Accelerator (SGA)

Contextualize

Establish common market understanding and baseline

Develop in-depth market understanding to inform baseline and framing for research

Understand

Build deep consumer and market understanding

Understand what drives consumer choice across market and understand who is winning

Synthesize

Address key strategic business questions

Prioritize consumer segments to establish recommendations based on tangible opportunities

Extend

Assess extended complementary topics

Assess additional research specific to questions surrounding pricing and innovation

Focus of this proposal

Development of a need segmentation sits at the core of the SGA program

Needs-based segmentation to understand behavior

Segmentation approach

- Based on **consumer needs** and **purchase context** to understand the ***why*** behind consumer choice
- A broader market assessment to capture the **competitive environment holistically**
- Ability to better **predict outcomes** with the segmentation built on the **realities** of the market
- Enables an in-depth understanding of **brand equity** alongside tangible **drivers of performance** and **choice**
- Detailed assessment of each individual consumer segment to inform **strategic questions** and **commercial planning**

Establishing a basis to address key strategic questions

From both a company…

- Brand associations and positioning
- Product portfolio assessment and optimization
- Growth opportunities and whitespace

…and category perspective

- Core customer segments and detailed profiles
- Customer segment growth predictions
- Purchase drivers, occasions, and context
- Customer journey and loyalty

SGA segmentation mapping used to visually illustrate market structure

Leaning on 3 key consumer dimensions …

Who they are
- Demographics
- Purchase occasion
- Attitudes & behavior

Segment example
- Family with kids
- Gifting
- Environmentally-friendly

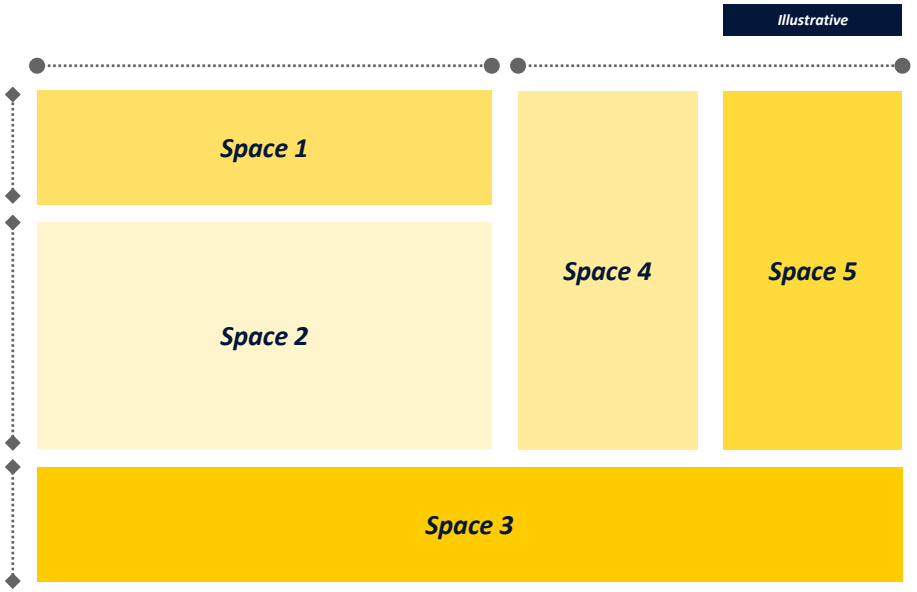
What they need
- Emotional needs
- Functional needs

- High quality
- Healthy
- Sustainable

What they do
- Selected product
- Selected retailer

- Nut butters
- Natural nuts
- KoRo
- Competitors

… to build data-driven segmentation mapping



SGA process and steps to identify path forward for KoRo

Contextualize → **Understand** → **Synthesize**

Baselining activities

- *Ideation Workshops*
- *Qualitative Research*
- *Market Sizing Exercise*

Quantitative survey

Markets

Sample

N=2.000~

- *Screener incl. Brand Funnel*
- *Last Purchase & Journey*
- *Drivers & Barriers*
- *Associations*
- *Deep dive & Loyalty*
- *Demographics*

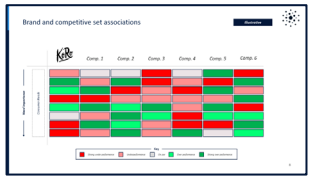
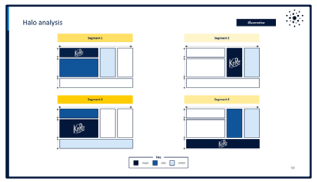
Brand Performance

Segment Profiles



Brand Associations

Opportunity Assessment



Need Structure Analysis

Strategic Options

Deep dive on subsequent slide

SGA outputs tailored to address specific strategic questions

	Key and strategic questions	Analyses	Outputs
Size of demand	• *What characterizes our key buyers?* • *What do they look for?*	***Segment Profiles***	• Detailed profiles • Category and retailer preferences
	• *In which buyer segments do we want to grow in the future?*	***Opportunity Assessment***	• Size and growth propensity • Penetration and market share • Opportunities and risks
	• *What brand attributes are most crucial to our current customers / future customers?*	***Brand Associations***	• Brand associations and image • Brand positioning
	• *What buying occasions do we leave out on?* • *Who are our key (i.e., most relevant) buyers?*	***Need Structure Analysis***	• Need structure analysis • Target-based potential gains
Where to play	• *How do we determine which product segments to grow in to maximize brand equity?* • *What product (attributes) trigger spontaneous purchases?*	***Product Analysis***	• Product and characteristic preferences • Feature assessment How to win	• *How do we position ourselves as a leading "Better-for-you" brand in Europe?*	***Brand Performance***	• Brand and competitor performance • Brand fit assessment • Market share
	• *How do we determine products segments to grow revenue and profit?* • *How do we reach €1bn revenue within 5 years?* • *What drives long term CLV?*	***Strategic Options***	• Strategic segment assessment • Recommended targets • Required positioning and equity actions

Recommend an initial workshop as next step to cover key topics in detail

- Scoping exercise
- Relevant outputs
- Relevant modules
- CRM integration
- Data availability
- Working Model

KoRo SGA program timings and detailed activity overview

Module	Contextualize	Understand	Synthesize	*Extend*
	2 weeks	4 weeks	4 weeks	*2-8 weeks*
Outcome	**Establish common market understanding and baseline**	**Build deep consumer and market understanding**	**Address key strategic business questions**	***Assess extended complementary topics***

Activities	• Workshop & qualitative research
	  • Establish competitive set
	  • Establish category scope
	  • Capture relevant occasions
	  • Identify key purchase criteria
	  • Customer needs
	  • Brand attributes
		• Quantitative consumer survey
		  • Brand funnel
		  • Last purchase & journey
		  • Drivers & barriers
		  • Brand associations
		  • Deep dive & loyalty
		  • Demographics & attitudes
			• Customer segmentation
			  • Journey analysis
			  • Brand associations
			  • Category associations
			  • Growth projections
			  • Segment profiles
			  • Opportunity assessment
			• Strategic recommendations
			• Path forward playbook
				• *Based on customer segmentation*
				  • *Pricing strategy (conjoint)*
				  • *Continuous measurement (tracker)*
				  • *Innovation (concept testing)*
				  • *Marketing mix optimization*
				  • *Category deep dives*
				• *CRM activities*
				  • *Optimization*
				  • *Typing*

	Market sizing	***Market sizing***		
		Consumer data collection		

Initial budget estimations covering SGA program

To cover phases of contextualization, quantitative data collection, analysis and synthesis we assume a span of **10 weeks**

Size of demand?

Deliver a deep understanding of the drivers behind **consumer demand**

Map tangible **customer segments** anchored in the realities of the market

Where to play?

Define series of tactical **'plays'** based on drivers of consumer needs

Uncover **brand strength** and understand **customer journey** across each play

How to win?

Strategic prioritization of plays based on size of the prize, context of the market

Establish **commercial objectives** and tactical playbook to achieve **sustainable growth**

Estimated budget for the above would be **€100.000-150.000 excl. VAT***

**Final pricing to be confirmed based on workshop to solidify scope*
